

**Sale Name:** July 26th 10am EDT Toy Train Auction

**LOT 240 - Very early cast iron Ives? 2-2-0 steam locomotive w/brass clock work key wind motor w/wire drive rods floor toy**

### Description

Very early prewar cast iron Ives? 2-2-0 steam locomotive, with brass clock work key wind motor, with wire drive rods, cast steel wheels, floor toy in original paint. This train is entirely constructed of pins and rivets, no nuts, bolts or screws. Paint is extremely good with normal wear in normal places, dust and display grime. Very little surface rust, some older rust on some underside parts as is to be expected. Train will clean and polish to look much better. No key, no markings. Train is approximately 8 inches long.

**Quantity:** 1
